Primary Key: ACCT_DIGITS_1_6

FRS FG and FS FILES		DW Tables : FRS_Attributes			
Element Number	Legacy Field Name (Title)	DW Field Name	Field Description	Data Type	Transformations
FG003/FS003	FISCAL YEAR	FISCAL_YEAR	This value identifies the fiscal year in which financial transactions and data on an account apply.	Text	
FG005/FS005	ACCT DIGITS 1-6	**ACCT_DIGITS_1_6**	This value identifies a 6-digit general ledger or subsidiary ledger account. This field is also the primary key for this table.	Text	
FG010/FS010	ACCOU DIGIT 1	ACCT_DIGIT_1	This value identifies a first digit of the account number.	Text	
FG011/FS011	ACCT DIGITS 2-6	ACCT_DIGITS_2_6	Identifies the fund -- the functional unit to which revenues or expenses apply.	Text	
FG027/FS027	DELETE FLAG	DELETE_FLAG	If the Delete flag is turned ON, an account is inactive. Its attributes cannot be modified and no transactions can be posted to it, but it is available for audit and reporting purposes, and may be reactivated if necessary.	Text	0 = OFF, 1 = ON1, 2 = ON2
FG028/FS028	FREEZE FLAG	FREEZE_FLAG	The value OFF in this field indicates that the account is not frozen. The value ON indicates that the account is frozen and can only receive certain types of transactions.	Text	0 = OFF, 1 = ON
FS032	ABR FLAG	ABR_FLAG	The ABR Flag identifies the rule used for automatic budget reallocation (ABR) in this account. It may also indicate that this account does not participate in ABR. ABR allows the system to automatically transfer budget dollars from predefined budget pools to object codes. Each rule defines a range of subcodes and the pool from which these subcodes draw budget dollars. For example, a rule of 1 might represent a subcode range of 1000-1099 with a budget pool of 1000.

FG041/FS034	MAP CODE	MAP_CODE	For Gral Ledger Accounts, is a System-maintained counter that holds the number of SL accounts that map to this GL account. This field may not be user-modified. For Subsidiary Ledger Accounts, this code relates the SL account to a fund ID in the associated GL account.	Text	
FG042/FS042	DESCRIPTION	DESCRIPTION	This value describes or names an account. For example, an appropriate description may be Student Union Supplies.	Text	
FG142-144/FS142-144	LONG-DESC-A/B	LONG_DESCRITPION	This value provides a more detailed description of an account.	Text	Concatenate Long Description1 and Long Description2
FG043/FS044	RESP PERSON	RESPONSIBLE_PERSON	This code identifies the name of the individual who controls an account's financial activity. Usually, this is the same person who receives the detailed accounting report for this account.	Text	
FG046/FS046	REPORT DISTRBUTION	REPORT_DISTRIBUTION	This code identifies the office or department to which reports on this account are sent. It may be used to sort reports for distribution.	Text	
FG050/FS050	MAJOR AREA	MAJOR_AREA_NAME	This code identifies an individual major areawithin the organization which has fiscal responsibility for this account.SCT name for FG050 was: DIVISION.	Text	
FG048/FS048	EXECUTIVE LEVEL	EXECUTIVE_LEVEL_NAME	This code identifies the executive-level officer responsible for this account's financial activity.	Text	
FG052/FS052	SCHOOL	SCHOOL_NAME	This code identifies the school or branch of study that has fiscal responsibility for this account. One example of a school is the school of Arts and Sciences.	Text

FRS FSFILE		DW Table : FRS_L1_9_AcctBal			
Element Number	Legacy Field Name (Title)	DW Field Name	Field Description	Data Type	Transformations
FS932	ABR FLAG	ABR_FLAG	The ABR Flag identifies the rule (subcode range) used on this account for automatic budget reallocation. It may also indicate that this account does not participate in the automatic budget reallocation process. Automatic budget reallocation is the method by which the system automatically transfers budget dollars from predefined budget pools to object codes (subcodes). A rule represents a particular subcode range and the pool from which the subcode would draw its budget. For example, a rule of 1 might represent a subcode range of 1000-1099 with a budget pool of 1000.The value ON in this field indicates not to use ABR. The value 1 indicates ABR is to be applied.	Text	
FS934	MAP CODE	MAP_CODE	This code relates the SL account to a fund I in the associated GL account. Each map code may correlate any number of Subsidiary Ledger accounts to the General Ledger account having this same 5-digit fund group ID. This "mapping" relationship allows transactions for each SL account to indirectly update the GL account to which it is mapped.	Text	
FS942	DOLLAR DESC	DOLLAR_DESC	This value describes the income or expense item (4-digit subcode) you want attached to the 6-digit account.	Text	
FS944	ORIG BUDGET	ORIG_BUDGET	This value identifies the amount originally budgeted for this account at the beginning of the fiscal year.	Currency
