

Announcement:

Transition to ADP Workforce Manager

Pepperdine Community,

Later this summer, Pepperdine University will transition to **ADP Workforce Manager**, our new timekeeping system. This platform will replace Kronos.

Why The Change?

The current version of Kronos will reach its "end-of-life" phase. Kronos lacks modern functionalities and can no longer be updated to meet the evolving needs of the University.

How This Benefits You

ADP Workforce Manager offers a more intuitive, real-time experience. Key benefits include:

- **Streamlined Access:** Effortlessly clock in and out, as required.
- **Real-Time Visibility:** View your time balances instantly.
- **Simplified Requests:** Submit time-off requests directly through the platform.
- **Future-Proofing:** This system allows us to incorporate additional tools and features based on employee feedback and institutional needs.

What's Next?

We look forward to sharing additional information and training resources with you in the upcoming weeks.

If you have questions regarding this change, please contact **Kimberly Hogan** at kimberly.hogan@pepperdine.edu.
