

HHC Employee Transportation Program

Vanpool Information

VANPOOLING

Vanpooling can be an economical, convenient and comfortable way to commute. A vanpool typically consists of 5 employees who live near each other and drive more than 15 miles to work.

You don't have to own a van to start a vanpool. Vanpool companies lease customized vehicles and charge a monthly fee based on the round-trip mileage of the commute.

A volunteer from the vanpool group drives the van and meets the other passengers at a convenient pick-up location near their homes; door-to-door service may be possible in some cases.

To find a vanpool, go to <http://hhc.mycarpool.net>. Vanpools are currently being formed from 45 areas to Howard Hughes Center: 16 in LA County, 20 in Orange County, 5 in Riverside County, 3 in San Bernardino County and 1 in Ventura County.

BENEFITS →

VANPOOLING SUBSIDIES AND BENEFITS

Each vanpool (5 or more passengers sharing the ride) receives a \$400 cash incentive monthly to pay for the lease. The driver keeps the van for personal use on week-ends. Repairs are covered under the lease and insurance is carried by the vanpool company; vanpoolers are not liable in accidents. Vanpool vans receive preferential parking treatment.

Each passenger participates in a bimonthly distribution of \$10,000 in cash among eligible alternative commuters.

A guaranteed complimentary ride via taxi or rental car is offered to all vanpoolers in an emergency or an unexpected work-late or leave-early situation.

Parking validations are provided for the occasional drive alone into work.

Vanpool subsidy requirements: All participants must leave the Center between 4 p.m. and 7 p.m. to be eligible for cash commuting subsidies.
