

In honor of your birthday, we celebrate you and made a prudent gift to support the work of Pepperdine's Student Care Team.

The Student Care Team is a multi-departmental team that strategizes and coordinates care for students at all five schools. These services include crisis intervention, case management, emergency fund support, linkage to services on and off campus, support with academic concerns, and support in accessing resources related to health, safety, and more.

Our mission to prepare students for lives of purpose, service, and leadership extends beyond the classroom. The Student Care Team helps ensure that all students part of the Pepperdine community are loved, cared for, and positioned for success in their academic pursuits and life beyond.
