Developing a Personal Vision Statement

If you never had to work another day in your life, how would you spend your time?

When your life ends, what will you regret not doing, seeing, or achieving?

What weaknesses have others noticed about you? What do you believe are your weaknesses?

What strengths have others seen in you based on your personality and accomplishments? What strengths do you see in yourself?

CRAFT YOUR PERSONAL VISION STATEMENT

Once you have thoughtfully prepared answers to these questions above, you are ready to craft your personal vision statement. Write in first person and make statements about the future you will achieve.

Write the statements as if you are already making them happen in your life. It is most useful to fully articulate the vision you want for your life and your future.
