

iPad Welcome: An easy guide to help you get started

Setting up the iPad

1. Download and install the latest version of iTunes from www.itunes.com/download.
2. Connect the iPad to your computer using the USB cable
3. Follow the onscreen instructions in iTunes to register iPad and sync

Syncing with iTunes: Use iTunes to sync your music, videos, downloaded apps, and other iTunes library content from your computer. You can also sync your contacts, calendars, and your browser bookmarks. iTunes lets you choose the information and content that you want to sync with iPad. By default, iTunes syncs automatically whenever you connect iPad to your computer. When you sync, you can also transfer information you create or purchase on your iPad to your computer.

Connecting to the Pepperdine Wi-Fi Network on Campus

1. Open Safari and visit any web page. You will be redirected to the WavesConnect website for your location.
2. Read and agree to the Computer and Network Responsible Use Policy.
3. Click "Start" next to the heading of "Pepperdine University Students" or "Faculty and Staff."
4. Enter your NetworkID and password.
5. Click "Register."
6. Wait for the progress bar to complete or reboot your computer.
7. Registration is now complete.

Getting your Apps

Using a code: From the computer- click redeem in the Quick Links box at the top right of the iTunes Store window. Then sync the iPad to add the app to the device. From the iPad- tap redeem at the bottom of the Featured list. Enter the code and download your app.

Using a URL: From the iPad- Just open the email and tap the link. Your app will automatically download to the device. From the computer- open the email and click the link to add the app to your iTunes library, and then sync the iPad to add the app to the device.

Free apps: No code or URL is required for free apps. Download and use free apps from the App Store just as you would normally.

iPad Features:

Setting up your email: Before you can use your email account on iPad - you need to add your account to Mail.

1. Tap **Mail**
2. Select your account type. Tap **Other** if your account is not listed.
3. Enter your account information and tap **Save**. Mail configures most email accounts automatically. Otherwise, you will be prompted for any additional settings.
4. Once your account information is saved - you can start sending and receiving email.
5. You can configure additional accounts by tapping Settings > Mail, Contacts, Calendars > Add Account

Zooming In or Out: When viewing photos, webpages, email, or maps, you can zoom in and out. Pinch

your fingers together or apart. For photos and webpages, you can double-tap (tap twice quickly) to zoom in, then double-tap again to zoom out. For maps, double-tap to zoom in and tap once with two fingers to zoom out.

Typing: Depending on the app you're using, the intelligent keyboard may automatically suggest corrections as you type, to help prevent mistyped words.

Enter text:

1. Tap a text field, such as in a note or new contact, to bring up the keyboard.
2. Tap keys on the keyboard. If you touch the wrong key, you can slide your finger to the correct key. The letter isn't entered until you release your finger from the key.

Editing—Cut, Copy, and Paste: The screen makes it easy to make changes to text you've entered. An onscreen magnifying glass helps you position the insertion point precisely where you need it. Grab points on selected text let you quickly select more or less text. You can also cut, copy, and paste text and photos within apps, or across multiple apps.

1. Position the insertion point: Touch and hold to bring up the magnifying glass, then drag to position the insertion point.
2. Select text: Tap the insertion point to display the selection buttons. Tap Select to select the adjacent word, or tap Select All to select all text. You can also double-tap a word to select it. In read-only documents such as webpages, touch and hold a word to select it.
3. Drag the grab points to select more or less text. Cut or copy text: Select text, then tap Cut or Copy.
